

JUNYAO (JORDAN) MA

Madison, WI | 608-707-9365 | jordan.analyst.wisc@gmail.com

SUMMARY

Statistics undergraduate with experience building structured data-validation and reporting workflows, reconciling multi-source datasets, and developing interactive dashboards. Skilled in SQL, Power BI, Advanced Excel, Python, R/Shiny, data cleaning, reporting pipelines, and data-quality controls.

EDUCATION

University of Wisconsin-Madison - B.S. Statistics Expected May 2027
Probability, Regression, Time Series, Statistical Computing, Data Visualization, Machine Learning

TECHNICAL SKILLS

SQL; Power BI; Advanced Excel (Power Query, PivotTables, lookups, validation, VBA/macros); Python (pandas, NumPy); R (tidyverse, ggplot2, Shiny); data cleaning; reconciliation; dashboard development; reporting workflows.

EXPERIENCE

Industrial and Commercial Bank of China, New York Branch May 2025 - Jul 2025
Credit Card Operations Analyst Intern | New York, NY

- Built and iteratively refined Excel tracking and validation workflows for billing-cycle return dates across 1,000+ accounts, supporting timely statement generation.
- Reconciled 2,000+ application records across source documents and internal systems using structured data-quality and exception checks.
- Converted operations and loan-team requirements into data-entry rules, exception categories, and QA checks that supported more consistent downstream workflows.

Qulian Technology May 2024 - Jul 2024
Data Operations Analyst Intern, Energy Data Focus | Hangzhou, China

- Collected, cleaned, and validated 100,000+ monthly electricity, natural-gas, and coal records from five partner companies.
- Maintained recurring Excel-based data pipelines for reporting and trend analysis, contributing to an approximately 5% reduction in manual tracking errors.
- Investigated anomalies, coordinated verified corrections, and updated core systems to maintain a consistent source of truth for reporting.

Chuangjin Hexin Fund Management Co., Ltd. Jun 2026 - Aug 2026
Intern, Quantitative Data Department | Shenzhen, China

- Extracted and transformed daily A-share trading-volume, price, and adjusted-volume data into standardized analytical factors.
- Documented an end-to-end workflow spanning indicator calculation, standardization, correlation testing, factor selection, and backtesting.

SELECTED PROJECTS

Global CO2 Emissions & Energy Dashboard 2026
R, Shiny, ggplot2, tidyverse

- Built a reactive bubble-scatter module for a 50,411-row dataset; selectors update filters, labels, trend, and correlation summaries.
- Removed aggregate rows, distinguished missing values from true zeros, and documented metric-specific data-availability limits.

Brazilian E-Commerce Customer Satisfaction 2026
R, tidyverse, ggplot2, patchwork

- Joined multiple Olist tables and built a coordinated multi-panel visualization with consistent encodings and annotations.

CREDENTIALS & LEADERSHIP

SOA Exam P - Passed | Chinese National First-Level Golf Athlete | AMC 12 Top 15% and AIME Qualifier
